**NOTE:**

**1) Floorings:**

Granite and marble are natural materials containing veins and tonality differences. There will be colour and markings caused by their complex mineral composition and incorporated impurities. While such materials can be pre-selected before installation, this non-conformity cannot be totally avoided. Granite tiles are pre-polished before laying and care has been taken for their installation. However, granite being a much harder material than marble cannot be re-polished after installation. Hence, some differences may be felt at the joints.

Timbers are natural material containing veins and tonal differences. Thus, it is not possible to achieve total consistency of colours and grain in their selection and installation.

The tonality and pattern of the flooring materials selected and installed shall be subject to availability

**2) Warranties:**

Where warranties are given by the manufacturers and/or contractors and/or suppliers of any of the equipment and or appliances installed by the Vendor at the Unit/Building, the Vendor shall assign to the Purchaser such warranties at the time when possession of the Unit/Building is delivered to the Purchaser.

**3) Cable Television:**

The Purchaser is liable to pay annual fee, subscription fee and such other fees to the StarHub Cable Vision Ltd (SCV) or any other relevant party or any other relevant authorities. The Vendor is not responsible to make arrangements with any of the said parties for the service connection for their respective subscription channels.

**4) Layout:**

Location of wardrobes, kitchen cabinets, fan coil units, electrical points, door swing positions and plaster ceiling boards are subjected to Architect's sole discretion and final design.

**5) Air Conditioning:**

Regular maintenance by the Purchaser of the air-conditioning systems, including the clearing of filters and condensation pipes, is essential for the efficient running and prolonging their operating life.

**6) Internet Access:**

If the Purchaser requires internet access, the Purchaser will have to make direct arrangements with an Internet Service Provider and/or such relevant entities/authorities for internet service to the Unit and make all necessary payments to such Internet Service Provider and/or such relevant authorities.
